To

The firſt day after euery of the Feaſts ſet downe for euery Terme, the Court of the Arches is kept in the forenoone in Bow Church, and the Admirall Court the ſame day in the afternoone in Southwarke: The 2 day after euery the ſaid Feaſts, the Audience Court is holden in the Conſiſtory in Paules in the forenoone, & Prerogatiue in the ſame place in the afternoone: The 3 day following euery of theſe Feaſts, ỹ Biſhop of Londons Conſiſtory court is holden in Paules in the forenoone, and his Maieſties Court of Delegates, in the ſame place in the afternoone. The fourth day after the ſaid Feaſts, his Maieſties Court of high Commiſſion is kept in the Conſiſtorie in Paules, (as it hath bẽn eſtate) euery weeke in the Terme time; on Thurſday in the afternoone at Lambeth. But if any of the dayes before recited be Sunday, or an Holiday, then is ſuch Court kept the day following.

Note alſo, that in Hilary Terme, 4 of the abouenamed Court-dayes be ordinarily kept, and as many in Eaſter & Trinity Termes, according to the courſe of the yeare, as the Iudge of the Arches in his diſcretion ſhall thinke good, who at the end of euery Terme appoyntoth the Court-dayes to bee kept in the Terme next following. But in Michaelmas Terme the court dayes for the ſame before ſet downe, (as in the reſt of ỹ late dayes they be not altered) were certainely kept. I therefore admoniſh all Countrey men (but eſpecially thoſe that dwell farre off) cited by any originall Proceſſe to appeare in the Arches, Audience, Prerogatiue, or Delegates, to ſend to ſome Proctor a note of the cauſe, and to what court they bee cited to appeare for them, & to returne them word of the very day in which it ſhall be needfull for them to appeare in perſon. But the courſe of practiſe in the high Commiſſion, and the Admirals Court is otherwiſe, for euery perſon cited to thoſe Courts, muſt appeare perſonally.

The Tearmes, with the Act or Commencement dayes in both Vniuerſities.

HIllarie Tearme beginneth in both, Ianuarie 13. and endeth at Oxford the 5. of Aprill. At Cambridge the 9. of Aprill.

Eaſter Tearme begins in both, the 23. of Aprill, ends at Oxford, May the 29. At Cambridge Iuly the firſt.

Trinitie Terme begins at Oxford, the 18. Iune, ends the 12. of Iuly. But may be prorogued, ad magiſtrorum bene placitum.

Michaelmas Terme in both, begins October the 10. and ends December the 16.

Act of Bachilors in both, is the firſt day of Lent.

Act of Doctere and Maiſters in Oxford, is Iuly 12. In Cambridge Iuly the firſt.

¶ Generall Rules of Phyſicke, Husbandry, and Gardening.

Nemo bonus medicus, qui Aſtrologiæ imperitus.

CVt no vaine, when the Moone is in the ſigne governing the member where the inciſion is to be made, neither when the Sun or Moone are afflicted by the malignant planets ♄. or ♂. in the morning after Sun riſing and faſting, or afternoone after perfect digeſtion, the ayre being temperate. In letting of blood a Phyſition muſt be heedefull and carefull of the patient, for many tymes the carcleſſe and vnlearned by letting of blood, openeth a way to dangerous infirmities, & oft to preſent death: neither is it conuenient for a leane, & weake man, for a very fat, and groſſe man, nor for a child vnder 14. yeares of Age to be let blood, or an old man aboue 56. It is to bee conſidered, how it ſtandeth

with

with the patient inwardly for his complection & age, for the time of the yeare and of the day. Therefore it is best to let blood in faire and temperate sun-shine weather.

The { Cholericke, Sanguine, Flegmaticke, Melãcholie } Moone { ♋ ♌ ♍, ♎ ♏ ♐, ♑ ♒ ♓, ♈ ♉ ♊ } { Cancer, ♌, or ♍; Cancer or Pisces. Aries, or Sagitarius. Libra, or Aquarius. }

But for the Phrensie, Pestilence, Squinancy, Pluriſie, Apoplexie, a continuall head-ach, a hot burning feuer, or any other extreame payne or dangerous disease, remedy must bee sought with all conuenient spéede, but then blood is not to be let in so great quantity, as if a chosen time might be taken.

The Learned Phyſitians will conſider alſo many other Aſtrologicall obſeruations neceſſarie both in blood letting, purging, and bathing.

Graft and plant trées the moone being new, and in ♂. ♏. ♌. or ♓. the wind South or West.

Remoue and set young trées, from October, till February, in the first quarter of the moone, the wind at south or west, the weather warme and dry.

Cut vines in Ianuary, and February.

Fell great Timber in December and Ianuary, in the wane of the moone is best, but if you would haue it grow againe, cut it downe in the new of the moone.

Cut

Cut hedges betweene the change and the full, from the end of Ianuarie till May.

Set and sow all kind of seeds, the moone in Aries, Taurus, Cancer, Virgo, Libra, Caprico: Aqua: or Pisces: but the seeds whose roots bee round, must be sowne or set, 3 or 4 dayes before or after the full moone.

Hang land, that weedes may not abound, in the last quarter of the moone.

Geld or Lobcattle the moone in Aries, Libra, or Sagittarius, before the full, you may let them blood at any time the signe not being in the heart, nor in the place where the incision is made, nor in the day of the change of the moone.

Shoare sheepe, cut haires, and sow all manner of Corne in the increase of the moone.

Gather Fruit, hearbs, and flowers to keepe, after the Full.

Coniectures of weather by the Sun & Moone.

VVHen the Sun riseth cleare, & not red, and is red at his setting, & when the Moone at her prime (which is 3 daies & 18. hou: after the change) appeares faire and bright, it is a signe of faire weather: but if the sun at his rising be fierie red, or a little after his rising be couered with blacke clouds, & at his setting be ouercast with a mist, or goe down behind a blacke cloud, and if the hornes of the Moone bee blunt, or a blacknes appeare in the midst of her, then take for foule weather.

Iudge-

Iudgements of the weather, by the signe where-in the Moone shall be, at the Change, Quarters, and Full.

IF the Moone doe either change, come to the full, or enter into her first or last quar: in ♈ ♎. or ♑. in winter it commonly is faire weather: But in Summer immoderate heate, and the hotter if it happen in Iune or Iuly: If shee change, be at the full, or enter into the first or last quarter in ♉. ♍. or Capricor: in winter, iudge of cold weather. But in summer temperate weather. When the said times chance in ♊. ♌. or ♒. iudge of much wind, especially in Autumn or the spring. If the moone change, be at the full, enter into the first or last quarter in ♋. ♏. or ♓. in winter, it foreshewth moyst and rainie weather or Snow to follow, but in Summer pleasant and temperate weather to ensue. Thus observing the foresaid tokens, it will for the most part bring you to the knowledge of the weather.
